

# Exciting New Development Glass Clear 180 Micron Environmentally Friendly Binding Covers

## Biodegradable

Materials that will break down over the course of time through biological activity.

## Recyclable

Materials that can be broken down and remade into a new item.

## Compostable

Materials that biodegrade into nutrient-rich compost in specific environmental conditions.

CLC are delighted to introduce a Brand-New product available on the market Eco Friendly Binding Covers. We have been getting asked a lot recently by our customers if we stock environmentally friendly products, therefore, we have managed to source 100% Glass Clear Recyclable Binding Covers.

## Environmental & Sustainability Benefits

- 100% Plastic-Free.
- 100 % recyclable on its own or with paper.
- Made 100% from renewable sources and bio-based additives.
- Biodegradable and compostable to standards including EN13432, ASTM D6400 and Vincotte OK Compost Home.
- Produces no toxic by-products when incinerated
- No GMO content
- ISO 14001 certified.
